

EFFAB, the European Forum of Farm Animal Breeding organizations, is looking for a new

## **DIRECTOR**

Key accountabilities of the Director of EFFAB include the general management of the EFFAB organization and its office (2 staff), the support of the interests of the collective EFFAB membership towards European policy making for research funding in animal breeding and reproduction and the representation of EFFAB towards European authorities, representatives and politicians in animal breeding related fields.

The position is full time. The EFFAB office is currently located in Wageningen, The Netherlands but will be moved to Brussels in due time. From the beginning the new Director will have his/her main work location in Brussels and he/she shall be requested to move to the Brussels area. The job requires high flexibility and the willingness to travel frequently.

Candidates shall have a background in animal breeding or in a related field and be familiar with the animal breeding and production industries in Europe. A good knowledge of EU agriculture & research administration and experience in an international environment are key to the position.

For further information please contact Gerard Albers, Chairman of the EFFAB Steering Committee at [gerard.albers@hendrix-genetics.com](mailto:gerard.albers@hendrix-genetics.com) or telephone +31 485 801983

Applications with cover letter and resume should be sent by 31 August 2011 at the latest to the above e-mail address or to:
